Competency Dictionary A World Leader In Competency Based

Competency Dictionary A World Leader In Competency Based The Power of a Competency Dictionary Your Guide to a WorldClass Workforce Weve all been there trying to describe what makes a great employee Its a tricky thing right Theyre a hard worker you might say Theyre a team player you could add But those are just vague ideas How can you truly measure and build a team of top performers Thats where a competency dictionary comes in Think of a competency dictionary as a roadmap for your companys success Its a structured collection of clearly defined competencies skills and behaviors that outline the ideal qualities of an employee in different roles Its not just about listing job requirements its about creating a shared understanding of what excellence looks like within your organization Why is a competency dictionary so important Clear Expectations When everyone knows the rules of the game it creates a level playing field Employees know exactly whats expected of them and managers have a clear framework to guide their evaluations and development plans Targeted Recruitment No more guessing With a competency dictionary you can identify the specific skills and traits needed for each role making your recruitment process more effective and targeted Employee Development By understanding the desired competencies you can create individualized training and development programs that help employees reach their full potential and contribute even more effectively Performance Management Evaluations become more objective and aligned with company goals Competencies provide a framework for measuring performance and identifying areas for growth Stronger Culture A competency dictionary defines the values and behaviors that make up your company culture This fosters a sense of unity alignment and shared purpose Building Your Own Competency Dictionary A StepbyStep Guide Creating a competency dictionary might seem daunting but it doesnt have to be Heres a simple approach you can follow 2 1 Define Your Core Values Start by clearly

identifying the core values that underpin your company culture These will be the foundation of your competency dictionary 2 Identify Key Roles What are the most important roles in your organization Focus on these roles initially and expand gradually as you become more comfortable with the process 3 Determine Core Competencies For each role brainstorm the key competencies needed for success These could include skills knowledge abilities and behaviors 4 Define Competency Levels To provide a clear understanding of expectations define different levels of proficiency for each competency such as Beginner Intermediate and Advanced 5 Create Competency Descriptions Provide detailed descriptions for each competency clearly outlining the expected behaviors and knowledge 6 Gather Feedback Involve your team in the process Ask for feedback on the competency descriptions to ensure clarity and relevance 7 Test and Refine Dont be afraid to experiment and refine your competency dictionary as needed Continuously evaluate its effectiveness and make adjustments based on your experiences Competency Dictionary A World Leader in CompetencyBased Development You might be thinking This all sounds great but I dont have time to create my own dictionary from scratch Dont worry There are excellent resources available that can help you get started Competency Dictionary is one such resource They are a world leader in competencybased development offering a comprehensive library of competency dictionaries assessments and training materials Their expertise can help you build a tailored dictionary that aligns with your specific industry company culture and roles What are the benefits of using a prebuilt competency dictionary Save Time and Resources No need to start from scratch A prebuilt dictionary can be a huge timesaver providing you with a readymade framework IndustrySpecific Expertise Competency Dictionary offers dictionaries tailored to different industries ensuring that your framework is relevant and uptodate BestPractice Frameworks Their dictionaries are built using industry best practices and research guaranteeing a high level of quality and effectiveness Continuous Support You can access ongoing support and resources from Competency Dictionary to ensure youre getting the most out of your competency framework Conclusion 3 A competency dictionary is a powerful tool for any organization that wants to build a high performing team It fosters clarity alignment and growth empowering employees to reach their full potential Whether you build

your own dictionary or leverage a prebuilt solution like Competency Dictionary investing in this framework is a smart move that can significantly impact your companys success FAQs 1 What is the difference between a competency dictionary and a skills matrix While both focus on skills and abilities a competency dictionary is broader and goes beyond simply listing skills It also includes behaviors values and knowledge needed for success A skills matrix on the other hand typically focuses on specific technical skills 2 How often should a competency dictionary be reviewed and updated Its best to review and update your competency dictionary regularly ideally every 12 years or whenever significant changes occur in your company industry or roles 3 Can a competency dictionary be used for all employees Yes but youll likely need to create different dictionaries for different departments or levels For example a leadership competency dictionary might have different priorities than a technical one 4 What are some examples of competencies Common competencies include communication problemsolving teamwork leadership adaptability and analytical skills 5 What are the best resources for developing a competency dictionary Besides Competency Dictionary you can also explore resources like SHRM ATD and the Society for Human Resource Management for guidance and templates
